The Plan should be referenced in the Measures and the applicable part of the Strategic Plan copied below or in an attachment. To the extent possible based on the nature of the work to be performed, the Measures should be "Output" oriented and specify an "Outcome.")

Performance Measures in Scope of Work shall contain measurable goals and objectives that are linked to the performance measures of the Agency's Strategic Plan:

Example: Goal: Reduce or Increase or Other Service [insert blank].¹

Objective: To reduce or increase or Other Service [insert blank] by [blank] percent or by a certain time.²

Activities: [Insert what services the Contractor is expected to perform to accomplish goals and objectives including an evaluation of the process and the outcome as well as provides efficiency measures that relate efforts to outputs of services].

OR: Through satisfactory completion of the Scope of Work set forth above and submission of acceptable Deliverables, the Contractor will assist the Agency to meet the portions of its Strategic Plan set forth below *(insert additional language if necessary to describe how Contractor's work will assist the Agency to fulfill its duties)*.

It also can measure the quantity of a service provided that meets a certain quality requirement. For example, the number of students graduated or promoted who meet a minimum preset level of achievement; the number of miles of roads repaired to a minimum safety standard; or the number of criminal investigations performed that result in identification of a prime suspect.

² An accomplishment is an "outcome" measure. These indicators measure accomplishments or results that occur (at least partially) because the services were provided. For example, the percentage of students achieving a specified skill level in reading, the percentage of miles of roads in excellent, good or fair condition; or the percent reduction in serious crimes or the percent of residents who perceive their neighborhoods as safe.
